The dairy industry at times can be very unforgiving. Consistent financial success sometimes eludes even the best-planned projects for a variety of reasons. Dairy Enterprise Services offers a multi-disciplined team of specialists who can effectively analyze a dairy business and identify key areas impacting its operational efficiency.

Our Dairy Enterprise Analysis program is offered at three different levels, each providing varying degrees of problem-solving and assistance in implementing corrective measures:

- Level I**
  - ◆ Upper-level operational review
  - ◆ Production and financial records analysis (production and financial records from previous three years are forwarded prior to team arrival)
  - ◆ Complete walk-through and discussion with entire farm management team
  - ◆ Personal presentation of key issues and priorities (including written report) provided in same two-day appointment
  
- Level II**
  - ◆ More intensive analysis
  - ◆ Extensive problem-solving delivered by multi-disciplined team of industry experts who have a high degree of specialization
  - ◆ Customized to individual needs
  
- Level III**
  - ◆ Direct assistance in implementing corrective measures
  - ◆ Scheduled follow-up
